The Engineering Leadership Development Program provides an exceptional foundation for accelerated career success. As future leaders, you’ll play a vital role in helping Raytheon Technologies redefine aerospace and defense.

Forge valuable relationships

Our two-year program provides a challenging and rewarding experience via two tracks. The Undergraduate Track is for recent college graduates and the Graduate Track is for those who have recently completed a master’s or doctorate degree.

Learn leadership first-hand through mentorships and executive-level access and engagement.

Achieve vital knowledge and insight across our enterprise through rotations to multiple business areas.

Broaden future opportunity and mobility across business units along with access to the LDP alumni network.

Gain hands-on experience through capstone projects and strategic dialogues.

Participate in company-wide, cross-functional development sessions to ensure a broad base of experience in leadership competencies, networking and business strategy.

Explore Raytheon Technologies as your next employer

PROGRAM LOCATIONS

“ELDP is structured to provide rich development experiences through targeted experiential and applied learning. It is an outstanding opportunity to develop and grow your engineering career, and I speak from experience, as my own career has personally benefited from the company’s leadership development programs.”

Mark Russell
Chief Technology Officer

An innovation powerhouse

Collins Aerospace
Aerostructures, avionics, interiors, mechanical systems, mission systems, and power and control systems.

Pratt & Whitney
Advanced aircraft engines and auxiliary power systems for commercial, military and business aircraft.

Raytheon Intelligence & Space
Advanced sensors, training, and cyber and software solutions for civil, military and commercial customers.

Raytheon Missiles & Defense
Advanced technologies, including air and missile defense systems, precision weapons, radars, and command and control systems.

Our values span the enterprise and drive our actions, behaviors and performance.

TRUST
We act with integrity and do the right thing.

RESPECT
We embrace diverse perspectives and treat others the way they want to be treated.

ACCOUNTABILITY
We honor our commitments, expect excellence and take pride in our work.

COLLABORATION
We share insights, learn together and act as a team.

INNOVATION
We experiment, design, build and transform with speed and agility.

Social impact

As a global industry leader, we have a responsibility to commit resources and talent to help meet the needs of our communities and to build a better future together.

Enabling lifelong learning: We believe that the future of aerospace and defense begins with shaping the next generation of purpose-driven innovators.

Honor those who serve: We are committed to supporting the men and women who keep us safe by investing in programs that prepare veterans for new careers.

Supporting communities: We are focused on the future through our strategic investments and skills-based volunteerism in critical community organizations that support basic human needs and promote diversity and inclusion.

Diversity & Inclusion
We are committed to ensuring all our employees and partners feel respected, valued and supported. Embracing diversity in all its forms not only pushes the limits of known science and delivers stronger business results, but also becomes a force for good, creating greater opportunity for communities around the world.
