

The future of aerospace and defense

Raytheon Technologies (NYSE: RTX) is an aerospace and defense company that provides advanced systems and services for commercial, military and government customers worldwide. The company was formed in 2020 through the combination of Raytheon Company and the United Technologies Corporation aerospace businesses, and is headquartered in Waltham, Massachusetts.

181,000 employees
61,000 engineers
46,000 patents

\$64.6B pro forma adjusted revenue (2020)
190+ years of combined innovation and industry leadership
~\$7.5B annual company- and customer-funded research and development

KEY CAPABILITIES

- Actuation, cargo, landing and propeller systems
- Aerostructures
- Aircraft engines and auxiliary power systems
- Avionics
- Cybersecurity
- Data analytics
- Interiors
- Missile defense
- Mission systems
- Power and controls
- Precision weapons
- Systems integration and sensors

Raytheon Technologies consists of four highly specialized businesses:

Collins Aerospace

Specializes in aerostructures, avionics, interiors, mechanical systems, mission systems, and power and control systems that serve customers across the commercial, regional, business aviation and military sectors.

Pratt & Whitney

Designs, manufactures and services the world's most advanced aircraft engines and auxiliary power systems for commercial, military and business aircraft.

Raytheon Intelligence & Space

Specializes in developing advanced sensors, training, and cyber and software solutions — delivering the disruptive technologies its customers need to succeed in any domain, against any challenge.

Raytheon Missiles & Defense

Provides the industry's most advanced end-to-end solutions to detect, track and engage threats.

“Combining complementary portfolios with advanced technology and R&D platforms, we are delivering transformative solutions to usher in the future of aerospace and defense.”

– Gregory J. Hayes, Chairman and Chief Executive Officer, Raytheon Technologies

We are defining the future of aerospace and defense with ambitious technologies that push the limits of known science.

Collins Aerospace | Redefining the travel experience

In an extremely difficult time for commercial air travel, Collins Aerospace is collaborating with industry partners and health care experts to introduce and accelerate initiatives designed to help restart the industry by making the travel experience safer and more efficient, from airport curb to final destination.

Pratt & Whitney | GTF™ engine

The Pratt & Whitney GTF™ engine is the quietest, cleanest and most fuel-efficient engine in its class. With up to 20% better fuel efficiency, this geared turbofan engine has significantly lower nitrogen oxide emissions and a 75% smaller noise footprint.

Raytheon Intelligence & Space | Visible Infrared Imaging Radiometer Suite (VIIRS)

VIIRS is a key instrument in the Joint Polar Satellite System, the new-generation polar-orbiting operational environmental satellite system. VIIRS generates high-fidelity sea, land and atmospheric data for a variety of other applied products, including monitoring of wildfires, drought, flooding, vegetation health, algal blooms and nighttime phenomena.

Raytheon Missiles & Defense | Lower Tier Air and Missile Defense Sensor

The Lower Tier Air and Missile Defense Sensor (LTAMDS) is a next-generation radar that will detect and help defeat advanced threats like hypersonic weapons. It simultaneously detects and engages multiple threats coming from any direction, ensuring there are no blind spots on the battlefield.

Our values span the enterprise and drive our actions, behaviors and performance.

TRUST

We act with integrity and do the right thing.

RESPECT

We embrace diverse perspectives and treat others the way they want to be treated.

ACCOUNTABILITY

We honor our commitments, expect excellence and take pride in our work.

COLLABORATION

We share insights, learn together and act as a team.

INNOVATION

We experiment, design, build and transform with speed and agility.

Social impact

As a global industry leader, we have a responsibility to commit resources and talent to help meet the needs of our communities and to build a better future together.

- **Enabling lifelong learning:** We believe that the future of aerospace and defense begins with shaping the next generation of purpose-driven innovators.
- **Honor those who serve:** We are committed to supporting the men and women who keep us safe by investing in programs that prepare veterans for new careers.
- **Supporting communities:** We are focused on the future through our strategic investments and skills-based volunteerism in critical community organizations that support basic human needs and promote diversity and inclusion.

Diversity and inclusion

We are committed to ensuring all our employees and partners feel respected, valued and supported. Embracing diversity in all its forms not only pushes the limits of known science and delivers stronger business results, but also becomes a force for good, creating greater opportunity for communities around the world.
